Subject: COT Security Alert - McAfee Scan Engine Version

Importance: High

COT Security Alert

The McAfee Scan Engine version 4400 is no longer supported by McAfee (http://www.mcafee.com/us/enterprise/support/customer_service/end_life.html). The McAfee Scan Engine version 5100 was released in July 2006 to replace version 4400. **The McAfee Scan Engine version 4400 will no longer function with DAT files released by McAfee Avert Labs. Any product that is installed and has not been upgraded to the McAfee Scan Engine version 5100 will no longer provide protection for those systems.**

If you are not sure what version of McAfee Scan Engine your machine is now running, right click the McAfee V-shield icon in the toolbar next to the clock on your desktop and choose "About VirusScan Enterprise" from the menu. A window will appear with version and update information.

Additional information can be found on the McAfee Knowledgebase (<https://knowledge.mcafee.com>) with Solution ID 612627: <https://knowledge.mcafee.com/SupportSite/search.do?cmd=displayKC&docType=kc&externalId=612627>

If you have any questions about this, contact the Commonwealth Service Desk at 502-564-7576 or send email inquiries to CommonwealthServiceDesk@ky.gov.

NOTICE: COT is providing this information so that you are aware of the latest security threats, vulnerabilities, software patches, etc. You should consult with your network administrator or other technical resources to ensure that the appropriate actions for these alerts are followed. If you are a network administrator and need additional information, please call the Help Desk at 502.564.7576.
